

CLEVELAND
"THE CAR WITHOUT ONE WEAK SPOT."

THE CAR OF SATISFACTION—design, construction, material, workmanship—all of the highest, all tested and proved—make its harmonious perfection.

THE CAR OF ECONOMY—cost of repairs can safely be eliminated as a factor, and you are guaranteed against them. The average repair expense of 100 CLEVELANDS during 1905 was between \$4.00 and \$5.00. A full dozen ran over 5,000 miles without one hour's repair expense.

The complete chassis is made by the Garford Co., the largest manufacturers of exclusively high-grade automobile parts in America, and the CLEVELAND is a year in advance of American automobile construction. Foreign practice is followed in the use of the imported Simms-Bosch low-tension magneto ignition, with which all important foreign cars are equipped. The control is regulated entirely by the speed of the engine, and is out of the operator's hands. An improved and refined carburetor is used, which will not flood, and which delivers the proper mixture at all speeds and under all road conditions. The muffler follows an unusually efficient foreign model, and its exhaust keeps the dust out of the car.

Demonstration by appointment.
Guaranteed free of repairs for one year.
MODEL F, 30-35 H. P., \$3,500.

WINTON MODEL-K

2000 Miles:
No Reason
To Complain

Mr. T. W. Pearsall, of Bridgeport, Conn., one of the 800 owners now using the Winton Model K, says:
"Drove my Model K 150 miles yesterday over good, bad and indifferent roads at a 27 mile an hour gait. Have used this car more than 2000 miles now, all told, and have never had to stop once for overheating, screwing up nuts, or repairing anything. Nothing could be more satisfactory."

COMPARE THE \$2500 WINTON MODEL K WITH ANY CAR ON THE MARKET SELLING AT \$3500 OR MORE.

For demonstration engagement, telephone 3580 Col.

Rainier

"The Pullman of Motor Cars."

Experienced motorists know that most road troubles are due to the complicated spark coil, commutator, or storage battery. Rainier tourists escape all this. "Make and Break" spark, with Simms-Bosch Magneto, are features that alone make the Rainier worth investigating; they contribute with other features to Rainier supremacy.

One 22-28 h. p. Touring Car for immediate delivery, and a few early deliveries left in 30-35 h. p. Machines.

Columbia GASOLINE
CARS
CHALLENGE
To Any Car Costing \$2,000 to \$2,500.

SOME manufacturers have been advertising the merits of their cars and claim that the cars can climb some small hills around New York. We maintain that the Columbia Car, price \$1,750, is as good if not a better car than any costing \$2,000 to \$2,500. We are willing to enter a contest over any roads a distance of 250 to 1,000 miles, including genuine hill climbing and a test that must prove something for
TIME, RELIABILITY AND ECONOMY.

The judges to be selected by any reliable Automobile Association, and the results published.

Mark XLIV-2. Price \$1,750; With Top, \$1,875.

THE INCOMPARABLE WHITE
THE CAR FOR SERVICE

The White, owing to the advantages inherent in the use of steam power, will take you anywhere at any time—it is a touring car in the fullest sense of the term. If you own a White, you need not wait until favorable weather and the County Supervisors make the roads hard and smooth, nor must you confine your touring to the main highway. Furthermore, the White, because of the simplicity of its mechanism, is particularly suitable for the man who wishes to drive and to take care of his own car.

Buy a White and see the country as you have never seen it before and as you cannot see it in any other way.

WHITE GARAGE
